SUMMARY OF FINDINGS						
Violations to be noted on follow-up report for sampling event conducted on June 20, 2014.						
GENERAL COMMENTS						
A reconnaissance inspection was conducted on Graphic Flexible Packaging Property in Pine Bluff, AR where a recent break in a Pine Bluff Wastewater sewer main released a reported 6,000 gallons of raw sewage onto the ground and into an area drainage slough. At the time of the inspection, the sewer main had been repaired. However, no effort has been made to clean up the drainage slough containing the majority of wastewater lost.
