| 10. | Industry familiar with limits
and requirements? | <input checked="" type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> N/A |

Additional Comments: This facility operates pretreatment works of screening each manhole. Solids (shells, etc.) are collected in offal storage and retrieved by a third party for reuse. City pretreatment permit applies local limit for pH of 5.0 – 12.0 S.U. and report results of BOD5, TSS, and O & G. There is a surcharge limit on BOD5 and TSS. The Operator is knowledgeable of the permit requirements and the treatment works. Hazardous waste stored onsite include spent fluorescent light bulbs. This is a conditionally exempt small quantity generator.

Visit Conducted By: Beck, Harmon

Date of Report: August 23, 2016

Water Division Photographic Evidence Sheet			
Location:	Tyson Food Inc. River Valley Hatchery Industrial User of Russellville WWTP (City Corporation)
