SUMMARY OF FINDINGS

The following items are violations of Part III, Section B, 1.A. of the permit and violations of APC&EC Regulation 6, which has adopted the "10 States Standards" (<http://10statesstandards.com/wastewaterstandards.html#40>):

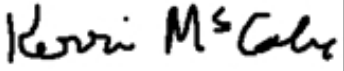

Smackover Lift Station:

- Only one of the two pumps installed is operational (42.31)

As a response to this inspection, please provide a date of completion for replacing the pump at Smackover Lift Station.

GENERAL COMMENTS

On February 9, 2018, I conducted an inspection in the City of Camden with the above participant. The City of Camden is a gravity fed collection system with a total of twelve (12) lift stations. One (1) lift station has telemetry and all lift stations are inspected daily and recorded on a log sheet. During the inspection, I observed the main lift station at the WWTP (see Photo 1), the Smackover Road Lift Station (see Photo 2), and the Apple Street Lift Station (see Photo 5). The Smackover Lift Station was the only lift station with violations noted during the inspection as the lift station currently only has one pump in operation. The wet well inspection of Smackover Road Lift Station identified foaming that was not normal operation of the lift station (see Photo 4). A Categorical Industry (SIC 2491; ARR001309), Gross and Janes Company, established a wood treating facility that is in proximity to the lift station. I advised Keith Ballard, Plant Superintendent, to visit the site to check if a Categorical Industry is discharging process water to the lift station. If this is the case, Mr. Ballard needs to contact Adam Yates, ADEQ OWQ Pretreatment Coordinator, at (501) 682-0671. The Apple Street lift station had evidence of recent high levels and may need to be monitored during high rain events (see Photo 6).

RE: Camden Water Utilities - Response to Inspection (Ouachita Co)
AFIN: 52-00073 **NPDES Permit No.: AR0022365**

Dear Mr. Richardson:

I have reviewed the response pertaining to my February 9, 2018 inspection of the City of Camden POTW. The information provided sufficiently addresses the violations referenced in my inspection report. At this time, the Department has no further comment concerning this particular inspection. Acceptance of this response by the Department does not preclude any future enforcement action deemed necessary at this site or any other site.

If we need further information concerning this matter, we will contact you. Thank you for your attention to this matter. Should you have any questions, feel free to contact me at (501) 837-2073 or you may e-mail me at youngm@adeq.state.ar.us.

Sincerely,
