

ADEQ MINOR SOURCE AIR PERMIT

Permit #: 1317-AR-2

IS ISSUED TO:

Alumacraft Boat Co.
Highway 67 North
Arkadelphia, AR 71923
Clark County
CSN: 10-0079

THIS PERMIT IS YOUR AUTHORITY TO CONSTRUCT, MODIFY, OPERATE, AND/OR MAINTAIN THE EQUIPMENT AND/OR FACILITY IN THE MANNER AS SET FORTH IN THE DEPARTMENT'S MINOR SOURCE AIR PERMIT AND YOUR APPLICATION. THIS PERMIT IS ISSUED PURSUANT TO THE PROVISIONS OF THE ARKANSAS WATER AND AIR POLLUTION CONTROL ACT (ARK. CODE ANN. SEC. 8-4-101 ET SEQ.) AND THE REGULATIONS PROMULGATED THEREUNDER, AND IS SUBJECT TO ALL LIMITS AND CONDITIONS CONTAINED HEREIN.

Signed:

October 22, 2002

Keith A. Michaels

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

SECTION II: INTRODUCTION

Summary

Alumacraft Boat Co. owns and operates an aluminum boat manufacturing facility in Arkadelphia, Arkansas. The facility has requested that Permit # 1317-AR-1 be modified to allow greater flexibility in the permitted concentration of hazardous air pollutants (HAP) and volatile organic compounds (VOC) present in the coatings and adhesives used in the boat manufacturing process. This modification also addressed the addition of the Boat Cleaning Area (SN-08) which emits 11.3 tons per year of VOC.

Process Description

Alumacraft Boat Co. is a manufacturer of aluminum fishing boats ranging from 10' to 18'. Alumacraft has owned this factory since 1974 and has generally operated as a two-shift, 8-hour operation since its beginning. The process begins with cutting and fabricating aluminum into boat parts, which are riveted and welded together. Foam flotation and plywood reinforcement are also added. After the boats are assembled, they move into an area for hand wiping prior to surface priming in preparation for spray painting.

The first emission point, SN-01, is a 25' x 8' spray booth (SB-1). This spray booth is used to prime the boats. The production through this booth varies depending on the size of boat being processed. The spray booth has two stacks, which are 2.833 ft. in diameter each. It is assumed 50% of the total emissions in this operation are exhausted through each stack. A 1:1 mixture of Primer Base and Primer Catalyst is applied by a HVLP spray gun from a plural component pumping system.

After the boats are primed for the final surface coating of paint, the process is split depending on the type of boat to be painted. The jon boats go to SB-2 Jon Boat Spray Paint Booth which is source SN-02. The bass boats go to SB-3 (SN-03) and on through the drying oven.

At emission point SN-02, the jon boats receive their final surface coating in a 25' x 8' spray booth. This spray booth also has two stacks, which are 2.833 ft. in diameter. It is assumed 50% of the total emissions in this operation are exhausted through each stack. The production through this booth varies depending on the size of the boat being painted. Enamel paints are applied

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

with a HVLP air spray gun from a 55 gallon drum and wall mounted heated pump system.

After the jon boats are painted, they currently go into inventory or are loaded. The boats go by the touch-up booth (SN-07), which is SB-4. This booth is 6' x 6' and has one 2.0 ft. stack. The touch-up is accomplished using a conventional air spray gun. After the jon boats are touched up, they go into inventory or loading.

After the bass boats leave the Boat Priming Spray Booth (SB-1), they enter the Bass Boat Spray Booth (SB-3). The bass boats receive the final surface coating in a 25' x 10' spray booth. This booth has only one stack, which measures 2.833 ft. in diameter. The production through this booth varies depending on the size of the boat being painted. This paint mix is applied from air-assisted cup gun. The pump dispenses the material in the ratio of four parts paint to one part hardener.

After the bass boats are painted, they enter DO-1, the Drying Oven, which is source SN-04. This batch oven is a 545,000 BTU/hr natural gas fired unit. The oven is an enclosed unit with one 6" stack to vent to the atmosphere. All VOCs from the painting operation are assumed to be exhausted at SN-03. After the bass boats leave the drying oven, they enter a final assembly area for carpeting, steering, upholstery, etc. The boats go through a touch-up process (SN-07) for completion. Then, a cleaning process with Naphtha takes place at SN-08 to complete the process. After this, the boats go into inventory or loading.

Emissions point SN-05 is a 6,000,000 BTU/hr natural gas fired air make-up unit. This unit is located outside the west end of the paint building and provides heat for employees comfort unit and aids in the paint process by warming the boats in the shop. This unit also replaces air being exhausted out of the paint booths by the exhaust fans. This unit has no stack.

Regulations

The facility is subject to regulations under Regulation 18, *Arkansas Air Pollution Control Code* and regulations under Regulation 19, *Regulations of the Arkansas Plan of Implementation for Air Pollution Control*. The facility is not subject to 40 CFR 63, Subpart VVVV - *National Emission Standards for Hazardous Air Pollutants for Boat Manufacturing* because the facility is not a major source of Hazardous Air Pollutants (HAPs).

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

The following table is a summary of the facility's total emissions.

TOTAL ALLOWABLE EMISSIONS		
Pollutant	Emission Rates	
	lb/hr	tpy
PM	0.3	0.5
PM ₁₀	0.3	0.5
SO ₂	0.1	0.1
VOC	17.1	43.0
CO	0.4	0.6
NO _x	1.0	2.4
HAPs*	7.72	17.33

* The facility is limited to 9.5 tons any single HAP or 17.33 tons combination of HAPs per year.

Permit #: 1317-AR-2
CSN: 10-0079

SECTION III: PERMIT HISTORY

Permit #1317-A was issued to Alumacraft Boat Company May 12, 1992. This was the first permit issued to the facility.

Permit #1317-AR-1 was issued to Alumacraft Boat Company on July 11, 1996. The facility installed an additional air make-up unit (SN-06) for its painting operations and completed some duct work for the touch-up booth (SN-07).

SECTION IV: EMISSION UNIT INFORMATION

Specific Conditions

- Pursuant to §19.501 et seq. of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control, effective February 15, 1999 (Regulation 19) and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not exceed the emission rates set forth in the following table. Compliance with hourly limits shall be demonstrated through compliance with Specific Condition #15. Compliance with non-combustion VOC annual limits shall be demonstrated through compliance with Specific Condition #14.

SN	Description	Pollutant	lb/hr	tpy
01	Boat Priming Spray Booth	VOC	5.2	*
02	Jon Boat Spray Paint Booth	VOC	6.1	*
03	Bass Boat Spray Booth	VOC	1.3	*
04	Drying Oven	PM ₁₀	0.1	0.3
		SO ₂	0.1	0.1
		VOC	0.1	0.1
		CO	0.1	0.1
		NO _x	0.1	0.3
		PM ₁₀	0.1	0.1
		SO ₂	0.1	0.1
		VOC	0.1	0.7
05	Air Make-Up Unit	CO	0.2	0.3
		NO _x	0.6	1.4
		PM ₁₀	0.1	0.1
		SO ₂	0.1	0.1
		VOC	0.1	0.1
06	Air Make-Up Unit	CO	0.1	0.2
		NO _x	0.3	0.7
07	Boat Touch-up Spray Booth	VOC	0.1	*
08	Boat Cleaning Area	VOC	4.5	*

* Coating operations emissions are limited to a Plantwide total of 42.8 tons per year of VOC.

- Pursuant to §18.801 of the Arkansas Air Pollution Control Code, effective February 15, 1999

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

(Regulation 18) and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not exceed the emission rates set forth in the following table. Compliance with hourly HAP limits shall be demonstrated through compliance with Specific Conditions #8 and #15. Compliance with annual HAP emissions shall be demonstrated through compliance with Specific Condition #12.

SN	Description	Pollutant	lb/hr	tpy
01	Boat Priming Spray Booth	HAP	3.91	*
02	Jon Boat Spray Paint Booth	HAP	2.55	*
03	Bass Boat Spray Booth	HAP	1.25	*
04	Drying Oven	PM	0.1	0.3
05	Air Make-Up Unit	PM	0.1	0.1
06	Air Make-Up Unit	PM	0.1	0.1
07	Boat Touch-up Spray Booth	HAP	0.02	*

* Coating operations emissions are limited to a Plantwide total of 9.5 tons single HAP or 17.33 tons combination of HAPs per year.

- Pursuant to A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, visible emissions shall not exceed the limits specified in the following table of this permit as measured by EPA Reference Method 9.

SN	Limit	Regulatory Citation
04	5%	§18.501
05	5%	§18.501
06	5%	§18.501

- Pursuant to §18.801 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not cause or permit the emission of air contaminants, including odors or water vapor and including an air contaminant whose emission is not otherwise prohibited by Regulation #18, if the emission of the air contaminant constitutes air pollution within the meaning of A.C.A. §8-4-303.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

5. Pursuant to §18.901 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not conduct operations in such a manner as to unnecessarily cause air contaminants and other pollutants to become airborne.
6. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not apply any amount of coating or naphtha solvents that exceed the following limits based on a consecutive 12 month period.

SN	Material	Limit gallons
01	primer mix	5000
02	paint	5784
03	paint	750
07	paint	17
08	naphtha	3000

7. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain monthly records which demonstrate compliance with Specific Condition #6. Records shall be updated by the fifteenth day of the month following the month to which the records pertain. These records shall be kept on site, and shall be made available to Department personnel upon request.
8. Pursuant to §18.1004 of the Arkansas Air Pollution Control Code, effective February 15, 1999 (Regulation 18) and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not exceed the formulation of HAPs for the given minimum TLV in the following table in any HAP containing compound used at the facility. Compliance with this table shall be demonstrated through compliance with Specific Conditions #9 and #10.

Minimum TLV (mg/m ³)	Maximum Single HAP Content (lb/gal)
>19.1	7.22
19.1	7.22
18.5	7.00

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

Minimum TLV (mg/m³)	Maximum Single HAP Content (lb/gal)
15.9	6.00
13.2	5.00
10.6	4.00
7.9	3.00
5.3	2.00
2.6	1.00
1.3	0.50
0.7	0.25
0.3	0.10

Note: HDI (CAS: 822-06-0) is exempt from this table because it has a very low vapor pressure.

9. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain records of the ACGIH TLV values as listed on current MSDS forms, or in the most recently published ACGIH handbook of Threshold Limit Values (TLVs) and Biological Exposure Indices (BEIs) for each HAP-containing material used. The concentration of each HAP in lb/gal and the corresponding TLV should be noted on these records. These records shall be maintained in a spreadsheet, database, or other well organized format. These records shall be kept on-site and made available to Department personnel upon request.
10. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain records of the amount of HAP emissions each month. These records shall indicate the amount of each HAP-containing material used during that month as well as the corresponding HAP content for each HAP in that material. The monthly emissions shall be calculated for each material by multiplying the usage by the corresponding HAP content(s). The total HAP emissions from all products shall also be indicated on these records. A copy of the MSDS sheet for each product used shall accompany these records. These records shall be updated by the fifteenth day of the month following the month to which the records pertain. A twelve (12) month rolling total of HAP emissions and each individual month's data shall be kept on-site and shall be made available to Department personnel upon request.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

11. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall limit total HAP concentration of all coatings applied to 7.22 lb/gal. Compliance with this condition shall be demonstrated through compliance with Specific Condition #9.
12. Pursuant to §18.801 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall limit all HAP emissions to 9.5 tons per year any single HAP and 17.33 tons per year combination of HAPs. Compliance with this condition shall be demonstrated through compliance with Specific Condition #10.
13. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall limit total VOC concentrations of all coatings applied to 8.14 lb/gal. Compliance with this condition shall be demonstrated by maintaining MSDS or other information indicating the VOC concentration for each coating applied at the facility and shall be made available to Department personnel upon request.
14. Pursuant to §19.501 et seq. of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control, effective February 15, 1999 (Regulation 19) and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not emit more than 42.8 tons of VOC from all coating operations based on a consecutive 12 month period. Compliance with this condition shall be shown through compliance with Specific Condition #6. Forms for tracking both VOC and HAP monthly usage can be found in Appendix A.
15. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall limit applied coatings to 71 gallons per day based on a 24 hour period.
16. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain daily records of coatings applied and shall be made available to Department personnel upon request.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

SECTION V: INSIGNIFICANT ACTIVITIES

The following types of activities or emissions are deemed insignificant on the basis of size, emission rate, production rate, or activity in accordance with Group A of the Insignificant Activities list found in Regulation 18 and 19 Appendix A. Insignificant activity emission determinations rely upon the information submitted by the permittee in an application dated May 14, 2002.

No insignificant activities were reported.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

SECTION VI: GENERAL CONDITIONS

1. Any terms or conditions included in this permit which specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*) as the sole origin of and authority for the terms or conditions are not required under the Clean Air Act or any of its applicable requirements, and are not federally enforceable under the Clean Air Act. Arkansas Pollution Control & Ecology Commission Regulation 18 was adopted pursuant to the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*). Any terms or conditions included in this permit which specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*) as the origin of and authority for the terms or conditions are enforceable under this Arkansas statute.
2. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall not relieve the owner or operator of the equipment and/or the facility from compliance with all applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated thereunder.
3. Pursuant to §19.704 of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control (Regulation 19) and/or A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the Department shall be notified in writing within thirty (30) days after construction has commenced, construction is complete, the equipment and/or facility is first placed in operation, and the equipment and/or facility first reaches the target production rate.
4. Pursuant to §19.410(B) of Regulation 19 and/or §18.309(B) of the Arkansas Air Pollution Control Code (Regulation 18) and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, construction or modification must commence within eighteen (18) months from the date of permit issuance.
5. Pursuant to §19.705 of Regulation 19 and/or §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, records must be kept for five years which will enable the Department to determine compliance with the terms of this permit--such as hours of operation, throughput, upset conditions, and continuous monitoring data. The records may be used, at the discretion of the Department, to determine compliance with the conditions of the permit.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

6. Pursuant to §19.705 of Regulation 19 and/or §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, any reports required by any condition contained in this permit shall be certified by a responsible official and submitted to the Department at the address below.

Arkansas Department of Environmental Quality
Air Division
ATTN: Compliance Inspector Supervisor
Post Office Box 8913
Little Rock, AR 72219

7. Pursuant to §19.702 of Regulation 19 and/or §18.1002 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, any equipment that is to be tested, unless stated in the Specific Conditions of this permit or by any federally regulated requirements, shall be tested with the following time frames: (1) Equipment to be constructed or modified shall be tested within sixty (60) days of achieving the maximum production rate, but in no event later than 180 days after initial start-up of the permitted source or (2) equipment already operating shall be tested according to the time frames set forth by the Department. The permittee shall notify the Department of the scheduled date of compliance testing at least fifteen (15) days in advance of such test. Compliance test results shall be submitted to the Department within thirty (30) days after the completed testing.
8. Pursuant to §19.702 of Regulation 19 and/or §18.1002 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the permittee shall provide:
- a. Sampling ports adequate for applicable test methods
 - b. Safe sampling platforms
 - c. Safe access to sampling platforms
 - d. Utilities for sampling and testing equipment
9. Pursuant to §19.303 of Regulation 19 and/or §18.1104 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the equipment, control apparatus and emission monitoring equipment shall be operated within their design limitations and maintained in good condition at all times.

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

10. Pursuant to §19.601 of Regulation 19 and/or §18.1101 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, if the permittee exceeds an emission limit established by this permit, they shall be deemed in violation of said permit and shall be subject to enforcement action. The Department may forego enforcement action for emissions exceeding any limits established by this permit provided the following requirements are met:
 - a. The permittee demonstrates to the satisfaction of the Department that the emissions resulted from an equipment malfunction or upset and are not the result of negligence or improper maintenance, and that all reasonable measures have been taken to immediately minimize or eliminate the excess emissions.
 - b. The permittee reports the occurrence or upset or breakdown of equipment (by telephone, facsimile, or overnight delivery) to the Department by the end of the next business day after the occurrence or the discovery of the occurrence.
 - c. The permittee shall submit to the Department, within five business days after the occurrence or the discovery of the occurrence, a full, written report of such occurrence, including a statement of all known causes and of the scheduling and nature of the actions to be taken to minimize or eliminate future occurrences, including, but not limited to, action to reduce the frequency of occurrence of such conditions, to minimize the amount by which said limits are exceeded, and to reduce the length of time for which said limits are exceeded. If the information is included in the initial report, it need not be submitted again.
11. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the permittee shall allow representatives of the Department upon the presentation of credentials:
 - a. To enter upon the permittee's premises, or other premises under the control of the permittee, where an air pollutant source is located or in which any records are required to be kept under the terms and conditions of this permit
 - b. To have access to and copy any records required to be kept under the terms and conditions of this permit, or the Act
 - c. To inspect any monitoring equipment or monitoring method required in this permit
 - d. To sample any emission of pollutants
 - e. To perform an operation and maintenance inspection of the permitted source

Alumacraft Boat Co.
Permit #: 1317-AR-2
CSN: 10-0079

12. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit is issued in reliance upon the statements and presentations made in the permit application. The Department has no responsibility for the adequacy or proper functioning of the equipment or control apparatus.
13. Pursuant to §19.410(A) of Regulation 19 and/or §18.309(A) of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall be subject to revocation or modification when, in the judgment of the Department, such revocation or modification shall become necessary to comply with the applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated thereunder.
14. Pursuant to §19.407(B) of Regulation 19 and/or §18.307(B) of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit may be transferred. An applicant for a transfer shall submit a written request for transfer of the permit on a form provided by the Department and submit the disclosure statement required by Arkansas Code Annotated §8-1-106 at least thirty (30) days in advance of the proposed transfer date. The permit will be automatically transferred to the new permittee unless the Department denies the request to transfer within thirty (30) days of the receipt of the disclosure statement. A transfer may be denied on the basis of the information revealed in the disclosure statement or other investigation or, if there is deliberate falsification or omission of relevant information.
15. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall be available for inspection on the premises where the control apparatus is located.
16. Pursuant to A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, this permit authorizes only those pollutant emitting activities addressed herein.
17. Pursuant to Regulation 18 and 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, this permit supersedes and voids all previously issued air permits for this facility.

Public Notice

Pursuant to A.C.A. §8-4-203, and the regulations promulgated thereunder, the Air Division of the Arkansas Department of Environmental Quality gives the following notice:

Alumacraft Boat Co. owns and operates an aluminum boat manufacturing facility on Highway 67 North in Arkadelphia, Clark County, Arkansas 71923. The facility has requested that Permit # 1317-AR-1 be modified to allow greater flexibility in the permitted concentration of hazardous air pollutants (HAP) and volatile organic compounds (VOC) present in the coatings and adhesives used in the boat manufacturing process. This modification also address the addition of the Boat Cleaning Area (SN-08) which emits 11.3 tons per year of VOC. Permitted PM/PM₁₀, NO_x, and HAP emissions will increase by 0.2, 0.4, and 10.83 tons per year, respectively. Permitted VOC and SO₂ emissions will decrease by 17.3 and 0.2 tons per year, respectively.

The application has been reviewed by the staff of the Department and has received the Department's tentative approval subject to the terms of this notice.

Citizens wishing to examine the permit application and staff findings and recommendations may do so by contacting Doug Szenher, Public Affairs Supervisor. Citizens desiring technical information concerning the application or permit should contact Charles Hurt, Engineer. Both Doug Szenher and Charles Hurt can be reached at the Department's central office, 8001 National Drive, Little Rock, Arkansas 72209, telephone: (501) 682-0744.

The draft permit and permit application are available for copying at the above address. A copy of the draft permit has also been placed at the Clark County Library, 609 Caddo, Arkadelphia, Arkansas 71923. This information may be reviewed during normal business hours.

Interested or affected persons may also submit written comments or request a hearing on the proposal, or the proposed modification, to the Department at the above address - Attention: Doug Szenher. In order to be considered, the comments must be submitted within thirty (30) days of publication of this notice. Although the Department is not proposing to conduct a public hearing, one will be scheduled if significant comments on the permit provisions are received. If a hearing is scheduled, adequate public notice will be given in the newspaper of largest circulation in the county in which the facility in question is, or will be, located.

The Director shall make a final decision to issue or deny this application or to impose special conditions in accordance with Section 2.1 of the Arkansas Pollution Control and Ecology Commission's Administrative Procedures (Regulation #8).
