This letter is to follow up with the phone conversation held yesterday morning June 6, 2013 at 10:56 a.m. regarding the storm water permit for Daniels Water Plant and testing data information. Daniels Water Plant Facility Storm Water permit was listed incorrectly and should be listed as a No-Exposure permit. Daniels Water Plant Facility has no open container storage at site and has containment for processes and chemical storage facilities.

If you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,

Thomas A. Myers, Environmental Compliance Manager
