RE: NPDES Permit No. AR0020605

To Whom It May Concern;

Last month I informed you that our contract lab, Sorrell's Research Laboratory, failed to collect the Nitrite plus Nitrate and Phosphorus samples for the month of October. After speaking to them recently they have failed to collect again, this time for the month of November. I have expressed how dissatisfied I am with this facilities lack of professionalism and informed them that out corrective action will be to find a new contract lab if this happens again. Along with this letter I have included Sorrell's standard non-compliance letter that they sent to us once they had been contacted about the information needed to prepare our DMR. If you have any questions please don't hesitate to call.

Regards,

*Brenda Gills*
