RE: NPDES Permit No. AR0020605

To Whom It May Concern;

Earlier today I contacted our contract lab, Sorrell's Research Laboratory & Field Services, and was informed that for the month of October our Nitrate + Nitrite as N and Total Phosphorous samples were not collected. We employ this lab to come to our wastewater facility once per month and collect the samples needed to perform testing and due to some personnel issue they did not. Along with this letter I have included Sorrell's standard non-compliance letter that they sent to us once they had been contacted about the information needed to prepare our DMR. If you have any questions please don't hesitate to call.

Regards,

Brenda Gills
