To: Mr. Gavin Gray / Enforcement Analyst

Division of Environmental Quality / Office of Water Quality

Subject: Discharge Permit AR0021601 Yearly Progress Report

Searcy Water Utilities / WWTP

Sir, we have been in compliance with the requirements of the new permit since it came into effect concerning the device used to measure TRC and with the new TRC limits. We have met the permit requirements for the limits on the lethal and sub-lethal endpoints for *C. dubia* as well.

We have not had any issues meeting the limits on either of the two issues listed above that are contained in our permit.

We plan to continue treating wastewater in the future as we are now. Testing and monitoring of the processes of the plant will remain the same in compliance with the permit requirements.

Thank you,

Jimmy Smith / WWTP Manager
