Re: Searcy Wastewater Treatment Plant
NPDES Permit No. AR0021601
AFIN No. 73-00055

To Whom It May Concern:

Enclosed you will please find a discharge monitoring report (DMR) for the monthly monitoring period ending June 30, 2014.

We regret to report that there is an excursion noted in the Fecal Coliform 7-day average. This was due to some uncharacteristic flow coming through the plant due to some unusual storm events. We are investigating the cause of this unusual inflow to the sanitary system and will correct it immediately upon its discovery.

If you have any questions, please feel free to contact me.

Sincerely,

SEARCY WATER UTILITIES
