RE: NPDES AR0021661, AFIN 43-00059, Cabot WaterWorks Effluent Ammonia violations

Mrs. Bolenbaugh,

Cabot Waterworks has received your letter dated August 15, 2013. As per our phone conversation, Cabot WaterWorks did not have any violations for dissolved oxygen as listed in your report. It was my understanding that you would correct the ADEQ report regarding the DO violations.

I am pleased to report that our Effluent Ammonia levels are currently within the NPDES permit requirements for the months of July and August 2013.

Our previous ammonia violations occurred while draining the Equalization Basin (EQ) after rain events. In the future, we will reduce the flow-rate when draining the EQ basin which should correct the ammonia violations.

Sincerely

Tim D. Joyner P.E.  
General Manager

RE: NPDES Permit Number AR0021661, AFIN 43-00059  
NPDES Permit Effluent Violations

Dear Mr. Joyner:

The Department has conducted a file review of the above referenced permit and determined your facility has experienced sixteen (16) effluent violations since January 1, 2011. Of those violations twelve (12) were Total Ammonia Nitrogen and four (4) were Dissolved Oxygen.

I have included a list of effluent violations that have occurred since January 1, 2011. Please review this list and submit a report/plan detailing the corrective actions that you are taking or will take to achieve compliance with the terms of the above referenced permit. Please include dates of when corrective actions and compliance will be achieved. Please submit this report to the Department by **September 16, 2013**.

Failure to abide by the effluent limitations set forth in your permit is in violation of Part 1, Section A of your permit and may result in enforcement action. Such action will include but may not be limited to the assessment of a voluntary civil penalty.

Thank you for your attention to this matter. Please refer to NPDES Permit Number **AR0021661** and AFIN **43-00059** in any written correspondence to ADEQ. Should you have any questions, feel free to e-mail me at [bolenbaughm@adeq.state.ar.us](mailto:bolenbaughm@adeq.state.ar.us) or call 501-682-0667.

Sincerely,

Michelle Bolenbaugh
