RE: TRC Final Compliance; NPDES Permit No. AR0021768, AFIN 58-00105

Dear Mr. Anderson:

This letter shall serve as City Corporation's Final Compliance with TRC report as required by NPDES Permit No. AR0021768. City Corporation is currently using chlorine gas to reduce pathogens to meet permit limits and sulfur dioxide to remove the chlorine from the final effluent. Lab staff uses Hach DOC316-53.0.032, Method 10014 for ultra-low chlorine to determine the final effluent TRC.

This letter shall also serve as the certification of compliance with TRC limits on the effective date (September 1, 2019) and the limits are still being met.

Should you have any questions or need other info please contact Larry Collins, Chief Operations Officer at 479-968-2080 ext. 222.

Sincerely,

Steve Mallett
Chief Executive Officer
