RE: NPDES Permit No. AR0021768, AFIN 58-00105, LIS No. 09-146-001

Dear Mr. Anderson:

This letter shall serve as City Corporation's report certifying compliance with permitted effluent limits for TSS and Nitrates as required by order LIS No. 09-146-001. Additions and improvements to the treatment plant to address these parameters have been completed and the plant is meeting permit limit during plant rated flows. During heavy rain events and extended wet periods, we expect to experience flows to the treatment plant well above the rated capacity of our treatment plant. Staff will continue to do everything possible to protect the treatment plant and meet permit limits under these conditions.

Should you have any questions or need other info please me at 479-968-2080 ext. 113.

Sincerely,

A handwritten signature in blue ink, appearing to read 'S. Mallett', written over a light blue horizontal line.

Steve Mallett  
General Manager
