ATTN: Alan Anderson, Enforcement Analyst
5301 Northshore Drive
North Little Rock, AR 72118-5317

Dear Alan,

As reported to you in July of this year, the Russellville Water and Sewer System maintained and operated by City Corporation continues to be in compliance with the current TSS permit limits as a result of operational changes made at the plant.

Additionally, we are pleased to report that as of 10:30 A.M. this morning (Thursday, October 18, 2012), we are now in compliance with the current TRC permit limits through the installation of temporary dechlorination facilities that feed liquid sodium bisulfite. These facilities will remain in place until construction of permanent dechlorination facilities is complete to ensure that we remain in compliance.

Please let me know if you need any additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Steve Mallett, Jr.'.

Steve Mallett, Jr., P.E.
