Dear Mr. Anderson,

I am pleased to submit a copy of the attached SSES Phase II final Report for Basins RV12, RV19 & RV24 on behalf of City Corporation. The enclosed copy is a draft copy but no changes were made after it was submitted, so it is also a final copy. The Phase II submittal shall fulfill the requirements of the Consent Administrative Order and the Corrective Action Plan dated May 28, 2010. The attached document is the final report prepared by RJN. Please review the document and respond with any concerns or comments.

This concludes all necessary SSES work as stated in the latest Milestone Schedule that was submitted with the March 31, 2017 CMOM update. Horseshoe Contractors has completed construction on Basins 7 & 14 Wastewater Improvements and is currently working on 3, 5 & 6 Wastewater Improvements. Basins 17, 18, 20, & 21 Wastewater Improvements is set to bid in May. City Corporation has continued to aggressively investigate and repair I/I issues throughout the system.
