RE: NPDES Permit No. AR0021971, AFIN 18-00110, CAO, LIS 12-035, Request for Clarification

Dear Mayor Fogleman:

The Department has reviewed the revised Corrective Action Plan (CAP) and Milestone Schedule submitted by the City of Marion on July 9, 2012. The CAP and Milestone Schedule were required by Paragraph I of the Order and Agreement Section of CAO LIS 12-035.

The Department is requesting post review clarification of the following items pertaining to the CAP and Milestone Schedule no later than **August 30, 2012**:

- Item #3- Select an Engineer and submit preliminary design. Please clarify this milestone. It appears that the city has chosen to utilize the services of both Bond Consulting Engineers, Inc. and ECCI.
- Although not specifically stated, it appears that the city will place an emphasis on pumping to the Mississippi River. Please clarify if this is not the chosen alternative.
- The Department requests that the city outline the steps that will be taken to attempt to comply with the effluent limits of the Permit until August 1, 2015.

Please mail the documentation described above to the Water Division / Enforcement Branch of ADEQ. Please refer to NPDES Permit No. AR0021971 and CAO LIS 12-035 in any written correspondence to ADEQ.
