**April 2013 Non-Compliance:**

**The City of Marion has struggled in the past to meet our Ammonia limits, but it has been exceedingly more difficult to do so this year. We have received over 30 inches of rainfall so far this winter and spring also affecting our TSS numbers. We again had to move some wastewater from our main lagoon cells to our rock beds to avoid overflow of our levee system. We hope to get back within our discharge limits next month.**
