Subject: Permit Renewal Application

Importance: High

Good afternoon,

This is just a follow-up to our phone call regarding the permit renewal application for the City of West Helena (AR0022021). Letters were sent to the facility on *February 1, 2023* and *May 1, 2023*, informing you that the discharge permit for *City of West Helena (AR0022021)* will expire on *January 31, 2024*. In order to continue discharging past the permit expiration, a complete permit renewal application **MUST** be submitted to the Division 180 days prior to the expiration date (*August 4, 2023*).

If the Division does not receive a complete permit renewal application by *March 4, 2020*, the only way to grant permit coverage until a new permit is issued, is through a Consent Administrative Order, which will include a civil penalty. Obviously, we all want to avoid that if at all possible. That is why we try and reach out to make you aware of that due date and the importance of making sure the renewal application is received on time.

In this process, if you have any questions about your renewal application, please don't hesitate to reach out to the Permits' Branch. The permit engineer working on this permit is *Shane Byrum*. *He* can be reached at 501-682-0618 or by email at shane.byrum@adeq.state.ar.us.

Please respond to this email letting me know you have received it and are aware of the deadline.

Thank you for your attention to this matter.
