Subject: AR0022021 West Helena Missing DMRs Request
Attachments: NCR form.pdf

Ms. Warren,

We have reviewed the file for the above referenced permit and determined the Discharge Monitoring Reports (DMRs) Monitoring Periods are not on file:

- TX1-Q 3/31/2019
- 001-A 4/30/2019

Failure to submit required reports is a violation of Part III, Section C, Condition 5 of your Permit.

If analysis was not conducted, please select "NODI E" in each section for that parameter on the DMR to denote "Analysis Not Conducted."

Please submit the missing DMR via NetDMR by 6/7/2019.

*I have attached a Non-Compliance Report (NCR) above. If either of the two missing DMRs have any effluent violations, be sure to fill out the NCR and attach it when you submit the DMRs.

Thank you,

Danielle Harbin
