RE: Decatur Permit Violations Permit Number AR0022292, AFIN 04-00052

Dear Ms. Bolenbaugh,

The Decatur WWTP in January 2019 exceeded the following permit limit, four days of high Nitrates 15.1 mg/l being the highest day.

Our Wastewater treatment plant is at substantial completion, we are doing will on meeting our limits, with Nitrates being the last parameter that is a challenge for us, but we expect to reach compliance on all parameter's soon. So far through the middle of March 2019 testing we have been.

Our contractor is still on site at our Wastewater treatment plant. Until we are completed we will continue to do our very best to meet all of our permit limits.

If you have any questions or concerns please give me a call at 479-752-3912.

Sincerely,

James Boston
Public Works Manager
City of Decatur
