RE: Decatur Permit Violations Permit Number AR0022292, AFIN 04-00052

Dear Ms. Bolenbaugh,

The Decatur WWTP had permit limit problems concerning the 7 day and the 30 day average of our permit for TSS. Also during the month of August we had three weeks that our phosphorus numbers were high. Our 30 day average was better than July with a 1.16 mg/l average.

As I said last month we are now finally beginning startup of our new Actiflo treatment process which is designed for TSS and Phosphorus removal. We hope to have the machine chemicals and process optimized next week and running full time.

If you have any questions or concerns please give me a call at 479-752-3912.

Sincerely,

James Boston
Public Works Manager
City of Decatur
