RE: Decatur Permit Violations Permit Number AR0022292, AFIN 04-00052

Dear Ms. Bolenbaugh,

The Decatur WWTP had permit limit problems concerning the 7 day and the 30 day average of our permit for TSS. Also during the month of March we had on week that our phosphorus permit 7 day average was 1.2 mg/l average for the week.

Rain rain and more rain did not help us at all. We feel like the plans we have submitted to your Department that we are hoping for approval on soon will rectify the solids and phosphorus problems for a long time to come. We have received ADH approval last week on the plant upgrades.

In the mean time we will continue to do our best to control the solids and phosphorus issues with what we have in place. And hope for a little dryer weather.

If you have any questions or concerns please give me a call at 479-752-3912.

Sincerely,

James Boston
Public Works Manager
City of Decatur
