Marysia,

Attached is a DMR Data Report and a SSO Report for the City of Heber Springs that you may need for your review during the permit renewal process. Also, below is a summary of other information that you may need. The review was conducted from June 1, 2009 through May 31, 2012. Please let me know if you have any questions or need any additional information.

- This facility does not have any effluent violations, DMR non-receipt violations, or past due compliance schedules; therefore, I have not written any warning letters. They have had 17 reported SSO's but it does not appear to be a significant problem. They do not have any current or pending CAO's, NOV's, or DAO's. Their last inspection was conducted on March 10, 2011 in which they were in compliance with the terms of the permit.
