Re: Pine Bluff Wastewater Utility, NPDES Permit Number AR0033316 - AFIN 35-00149

Dear Ms. Daniel,

We received your e-mail on yesterday, June 17th. The purpose of this correspondence is to provide a corrective action plan for the previously reported Sanitary Sewer Overflow (SSO) that occurred at 1701 Jefferson Parkway (Twin Rivers Paper Mill) property:

- The scope of work will be the installation of approximately 1600LF of 30" PVC force main over a 5-day working period. This installation will begin as soon as possible providing permission by property owner.
- All construction on the property will be documented with pictures and aerial drone technology monitoring.
- All materials and site conditions will be placed back to as good or better condition upon completion of the project.
- One (1) day to do crossing of the road and ditch. By-pass pumping will occur to ensure the continued flow of the mill effluent will not be interrupted.
- Remediation will commence after the repair/installation of pipe using current practices to eliminate any odors, break down residues, and become commonality the soil.

Should you have any questions or concerns, please feel free to contact me at (870) 535-6603.

Sincerely,

Vincent Miles

E.C. Supervisor

Cc: Ken Johnson, General Manager
