**Sent:** Thursday, August 20, 2015 1:27 PM  
**To:** 'ken@pbwastewater.com'  
**Subject:** AR0033316\_Pine Bluff Local limits Certification

Mr. Johnson:

Thank you for speaking with me today. The permit posted on our website included a requirement to certify that the existing local limits are adequate to prevent pass through, inhibition, or interference. The posted permit gave the City 6 months to submit this certification. You indicated to me that the permit you have allows the city 6 months to submit the certification to ADEQ.

The actual date on which this certification is due is 60 days after the effective date of the permit which is August 29, 2015. You requested that I send you an e mail so you could forward to Vincent Miles.

Thank you for your attention to this matter!

Alan Anderson  
Enforcement Analyst  
ADEQ Water Division
