Re: NPDES Permit AR0033766
TRE Action Plan – Quarterly Report

Ms. Barnett,

As required by the letter from ADEQ dated July 2, 2015, Paragould Light, Water and Cable (PLWC) is submitting this letter as the eighth of the quarterly reports for the Toxicity Reduction Evaluation (TRE) Action Plan activities occurring in the quarter ending April 30, 2017.

Activities:

WET samples collected:

April 3rd, 4th, 5th

Please find attached the PLWC quarterly toxicity report associated with the above listed testing dates. The effluent samples did not exhibit either lethal or sublethal effects at the critical dilution of 100% for *Pimpephales promelas* (fathead minnow) or *Ceriodaphnia dubia*. As such, the effluent samples passed all testing for both organisms.

If you have questions or need additional information, do not hesitate to contact me at (870) 239-7795 or l Ellington@paragould.com. Thank you.

Sincerely,

Lisa Ellington

Environmental Services Manager
