**Subject:** Re: Water Samples - Gulpha Creek

Yes sir we got that message as well. We will be posting the signs first thing tomorrow morning and do everything we can to make sure that no one swims or wades in that area the water is only about 1 foot deep there.

I asked the Arkansas department of health to catch more samples upstream and downstream of our pump station.

We will keep you posted.

Thanks

Monty Ledbetter  
Utilities Director  
City of Hot Springs

**Subject:** FW: Water Samples

Mr. Healey,

All of the grab samples collected on Gulpha Creek have an E. coli density above the threshold of 126 cfus 100ml. These results confirm the affected area should not have swimming or direct body contact.

Thanks Much!

J. Terry Paul, R.S.  
Environmental Health Branch Chief  
Arkansas Department of Health

**Subject:** Water Samples

Alindria or Rakara,

Did we get any sample result from a swim beach type sample (investigation) from James Kisner in Garland County. Probably came into the lab yesterday.

Thanks Terry
