RE: NPDES Permit No. AR0034347, AFIN 42-00125, Corrective Action Plan

Dear Mayor Wise:

On July 17, 2015, ADEQ conducted a review of the certified Discharge Monitoring Reports submitted by the City of Sheridan from May 1, 2012 through May 31, 2015, and as a result of that review, requested that the City develop and submit a Corrective Action Plan (CAP) and Milestone Schedule to achieve compliance with the above referenced NPDES Permit. The CAP and schedule were developed and submitted to the ADEQ on August 17, 2015.

The CAP and Milestone Schedule have been approved by Water Division Staff, but due to the duration to address the Ammonia Nitrogen violations in the CAP, a Consent Administrative Order (CAO) will be proposed. The proposed CAO will be mailed to you along with information on how to proceed. In the interim, please commence with the implementation of the CAP.

Additionally, ADEQ request the City submit quarterly reports documenting progress toward achieving compliance with the permitted effluent limitations. Please submit the first report by December 1, 2015.

Should you have any questions concerning the above referenced compliance issue, please feel free to contact me at 501-682-0635, or by e mail: anderson@adeq.state.ar.us.

Thank you
