**To:** 'David Fitzgerald' (sheridanwater@windstream.net)  
**Subject:** AR0034347\_Meeting confirmation and Agenda\_20151204

David:

The meeting has been set up for 10:00 AM on Thursday 12/10/15. Once you all get here just sign in at reception and I will come get you. Here is a general list of item we would like you to talk about:

- Brief overview of wastewater treatment plant/process
- Description of the cause of the violations
- Review of Operations and Maintenance improvements geared toward correcting the violations
- Potential or preliminary treatment improvement options to correct ammonia violations
- Timeline for improvements

This list is not “etched in stone” so please feel free to present any information you wish. The goal is for us to communicate so that the department has an understanding of the issues facing the City of Sheridan and we can move forward.

***Please let me know you received this e mail***

Thanks

Alan Anderson

**Subject:** RE: NPDES Permit #AR0034347

David:

Got the letter. I was just about to contact you. My management would like me to schedule a meeting with you, the Mayor, and your consulting engineer. I would like to suggest that we hold off on enforcement. All I can do is suggest and recommend. Could you get with your folks and come up with a few available dates.
