We feel this problem was due to:

We discharged 8 days in May doing test runs with new  
Outfall 002 pump, we took regular samples and I  
thought we had till the end of June to do our toxicity  
test like our outfall 001.

We plan on correcting the problem in this manner:

We have Outfall 001 + 002 Toxicity Dates Posted  
so this won't happen again!

Time estimated that it will take to correct problem:

Sincerely,
