RE: NPDES Permit #AR0034347

Dear Alan Anderson:

Sheridan Water Works has been working with FTN & Associates and have identified locations for sampling to collect data on ammonia nitrogen. Testing will start this week. Due to dry weather up to this time we were not discharging. With this current rainfall we are discharging and will start collecting data by the end of March or April 2016, depending on low temps. March 2016 is in the milestone schedule of the Corrective Action Plan. If you have any questions please feel free to call me at 870-942-6048.

Thank You

David Fitzgerald  
Manager Sheridan Water Works
