RE: First Quarter 2022 Progress Report – Stuttgart Wastewater Treatment Facility
NPDES Permit #AR0034380

Ms. McCutcheon:

This letter serves as the 2022 First Quarter Progress Report for the City of Stuttgart wastewater treatment facility. PMI has been tasked by the city to develop corrective action measures in response to CAO LIS 21-035. The Corrective Action Plan has been revised and resubmitted to DEQ on March 31, 2022.

Steps taken at the facility were performed as a result of an inspection report and subsequent conference with DEQ. As discussed in the CAP, all inspection report items that did not require significant capital investment have been attended to. PMI is assisting Stuttgart with obtaining funding for capital projects following the milestone schedule outlined in the CAP. Late Q2 2022 we anticipate having more understanding of funding options and timeframe.

Please contact me at 501-221-7122 or bwingfield@pmico.com with any questions or comments concerning this report.

Sincerely,

PMI

Brad Wingfield, P.E.
Principal – Engineering Division
