Good morning,

DEQ has reviewed the Discharge Monitoring Report (DMR) 001-A for the monitoring period ending 9/30/21, 10/31/21, and 7/31/22, as submitted by city of Stuttgart (AR0034380, AFIN 01-00214), and multiple violations were reported on the DMR. Per the requirements of the permit, anytime violations are reported, a Non-Compliance Report (NCR) must be submitted. I have attached a copy of an NCR. Please fill this out for the violations reported on the DMR and send back to me. You are welcome to email it to me, but in the future it will need to be attached to the DMR via NetDMR. Please send this back to me by Friday, September 29th, 2023.

DEQ has reviewed the DMR and Non-Compliance Reports (NCRs) submitted for permit AR0034380, for the monitoring period ending 3/31/22, 2/28/23, 3/31/23, and 4/20/23 001-A. The review revealed that the NCR was not complete. The form was not signed. I have attached the unsigned forms for you to sign and return. Moving forward, if you use the form I attached, you can type in your signature then select the box below it which will count as a wet signature same as submitting a DMR. If you have any questions, please don't hesitate to contact me.

Thank you,

Rachel Wilcox | Compliance Analyst
