RE: NPDES Permit No. AR0034380, AFIN 01-00214
Closure of Consent Administrative Order LIS 16-006

Dear Mr. Lawson:

In reviewing the files for the above referenced Consent Administrative Order (CAO), the Department has determined that the requirements of the CAO have been satisfied, therefore, CAO LIS 16-006 was closed as of the date of this letter.

The Respondent shall maintain the corrective actions taken to comply with the requirements of the CAO. Closure of this Order by the Department does not preclude any future enforcement action deemed necessary. If future violations occur that require enforcement action, the Department will consider this Order as required by Arkansas Pollution Control and Ecology Commission Regulation No. 7, Civil Penalties. This regulation requires the Department to consider the history of your facility and how expeditiously violations were addressed in determining any civil penalty that may be necessary for any future violations.

Should you have any questions about this matter, please contact Alan Anderson at 501-682-0635, or by e-mail at the following address: anderson@adeq.state.ar.us.

Sincerely,

Caleb Osborne
Associate Director, Office of Water Quality

The CAO was proposed due to the Permittee reporting sixteen (16) effluent limit violations between May 1, 2012 and June 30, 2015. CAO LIS 16-006 required the Permittee to conduct a complete sewer system evaluation through an Arkansas registered Professional Engineer. The CAO included a civil penalty of \$2,500.00.

The Permittee has satisfied the requirements of the CAO. A closure letter is included for the Associate Director's signature. All supporting documents are included.
