Tommy Lawson, the Manager of Stuttgart Water Works, just returned my call. He acknowledged that the SSO at 710 Lincoln is a city issue and said that it was reported to ADEQ.

He said that they received heavy rain and that the location in question is in a low lying area. Mr. Lawson mentioned that they are working to fix their I&I issues, but that the progress has been slow. Mr. Lawson's number is 870-674-7115.

Kyle,

In Alan's absence, would you please give the City a call?

Richard,

Melissa took this complaint regarding an overflow for the City of Stuttgart. Could you please have an EA call the City to see if this is their line causing issues or issues at the private service line? If it is a service line, we will forward to ADH. If it is the City, we will wait for feedback from Enforcement Branch. Please let us know. Thank you.
