RE: NPDES Permit No.: AR0041335, AFIN: 60-00543
Sanitary Sewer Overflows

Dear Ms. Hughes:

As preparation for the renewal for the above referenced permit, a review of the NPDES file was performed by the Department from November 1, 2013 through October 31, 2016. The review revealed the following compliance issues:

The City of Jacksonville has reported 80 Sanitary Sewer Overflows (SSOs) totaling over 37,000 gallons. SSOs are an unpermitted discharge and the Department expects the City of Jacksonville to work towards eliminating them. Please submit a Corrective Action Plan (CAP), with a milestone schedule and expected date of compliance. The CAP should detail the work that is being done or will be done to correct the issue. Your response should reach the Department by **December 8, 2016**.

Any violation of your NPDES Permit is subject to enforcement action that may include the assessment of a civil penalty by this Department, pursuant to the Arkansas Water and Air Pollution Control Act. The regulations and your NPDES Permit require that you take all reasonable measures necessary to eliminate or prevent the occurrence of violations.

Thank you for your attention to this matter. Should you have any questions, or would like to schedule a meeting, feel free to contact me at 501-682-0630 or you may e-mail me at allen-daniel@adeq.state.ar.us.

Sincerely,

Leslie Allen-Daniel
