RE: TBLL Written Certification
Permit Number AR0041335
Jacksonville Wastewater Utility – J. Albert Johnson Regional Treatment Facility

Dear Ms. Allen-Daniel:

This is to serve as written certification that Jacksonville Wastewater Utility has performed a technical evaluation on our existing technically based local limits, and are in compliance based on current state water quality standards. However, we are currently evaluating the need for revisions to our TBLL and will subsequently notify the Department of our intentions within the 12-month period listed in our NPDES permit - Page 4, Part 2, Sec B, Para 2. Thank you for your time.

Respectfully,

Mike Overstreet
