RE: NPDES Permit No.: AR0041335, AFIN: 60-00543
CAP for Sanitary Sewer Overflows

Dear Ms. Hughes:

On December 6, 2016, the Department received a Corrective Action Plan (CAP) from the above referenced facility, to address the Sanitary Sewer Overflows (SSOs). The Department has completed their review of the CAP and has the following comment:

- Please submit to the Department annual progress reports for three years. These reports should detail the corrective actions performed in the past year to reduce SSOs. Please also include the corrective actions anticipated to be performed the next year. The first progress report will be due **January 10, 2018**. Each subsequent report should be submitted to the Department by January 10, for the next three years.

Any violation of your NPDES Permit is subject to enforcement action that may include the assessment of a civil penalty by this Department, pursuant to the Arkansas Water and Air Pollution Control Act. The regulations and your NPDES Permit require that you take all reasonable measures necessary to eliminate or prevent the occurrence of violations.

Thank you for your attention to this matter. Should you have any questions feel free to e-mail me at allen-daniel@adeq.state.ar.us or you may call me at 501-682-0630.

Sincerely,

Leslie Allen-Daniel
