See attached progress report update. The project is scheduled to open bids in two weeks. Bids will be effective for 60 days. I have been coordinating with Loretta regarding the construction permit, but have not noticed that it is out to public notice. If we are not successful in obtaining the construction permit within the allotted time the bids are effective, we will have no choice to re-bid the project if the low bidder will not honor the bid. This will also effect another time extension request for the CAO which is not preferable. This would place the construction permit effective on or before the first week of May.

I communicated with Loretta on 2/18 and was under the understanding that public notice was eminent on the construction permit; however, I do not see it that it noticed under draft permits.

If you have any questions please let me know.

Sorry for the few days late. The snow was rough last week getting things together and I am on vacation this week. My sincere apologies.

Thanks - Craig

I'm thinking Santa might need to bring the water department a new scanner for Christmas 😊
Again, thanks for your help and best of the holidays to everyone!

I will just wait until I receive the hard copy, because the electronic copy does not have your signature on the resolution.

Danielle,

It is signed. Here's the original scan of resolution 2020-23. The printed copy being overnighted will show the signature. In fact, our clerk will not sign a resolution, or ordinance until after I have signed to keep this from happening. Then again, I have to admit the scanned copy Jon send sure does appear blank. That must have been a scan of a copy that had been downloaded to the city shared file.

Again, my apology!

Danielle I have attached the signed signature page to the Amended CAO as well as the Resolution passed by the WR City Council. I will have this sent priority overnight to you as well.

Please let me know if you need anything else.
