Subject: Arkansas NPDES General Permit ARR000000 Darling Ingredients Inc. Comments

Hello,

Darling Ingredients Inc. (Darling) has reviewed the draft Arkansas National Pollutant Discharge Elimination System General Permit ARR000000 (Permit) and is providing the Arkansas Division of Environmental Quality (ADEQ) the following comment:

- On page 34 of the Permit, Permit Condition (PC) 5.2, Darling requests the ADEQ to revise the SWAR found on [Division of Environmental Quality \(DEQ\) \(state.ar.us\)](https://www.state.ar.us) to reflect the newly requested information: 5.2.c, 5.2.d, 5.2.e, 5.2.f, 5.2.g.
- On page 34 of the Permit, PC 5.2 and 5.2.2, Darling requests these example years to be after the effective date takes place.
- On page 43 of the Permit, PC 7.9.1, Darling requests this condition to be removed as it reiterates what PC 7.9 already stated before. This change would inherently affect 7.9.1.1.1 and 7.9.1.1.2 as well.

As always, Darling appreciates the ADEQ's assistance in this matter. If there should be any questions relative to the proposed changes, please feel free to contact me at your convenience.

Thank you,

Matthew Smith
