North Little Rock, AR 72118-5317

To whom it may concern,

In May of 2019, we received information that our home has been in a zone A flood plain since 2007 when we put in the sewer pump. We were informed that we had to move. At that time we canceled our permit and filled out forms except for the end date thinking everything would fall into place quickly. We thought we would be able to move the house pretty quickly but that was not the case. The weather and personal issues slowed the process. We went ahead and made some changes to our system but did not send the paperwork back it because it was filled out all except the end date. It seems like so many things kept us from moving. Finally, we made the decision to move the house to west Ak and are now in the process of preparing the land. This process took way longer than we expected. I will send in the Notice of Termination form just as soon as we get the house prepared for the move. I apologize for not contacting someone sooner with all the delays but it has been such a crazy year with so many disappointments and delays. My husband is losing his job in Sept when the plant closes so we are trying to get everything completed as soon as possible. If you need any more info, please call me 501-514-3658

Thank you,

Judith Ingle
