Mrs. Belcourt, I received notice of the email sent concerning our Annual Pretreatment Report deficiencies yesterday. I researched all information and I did receive a copy of the email on May 24, 2023. Naturally the fault of the oversight of the actions that need to be taken falls on me as I am the WWTP Manager. Today myself and another operator have put into action the first set of samples to try and start tracing the abundance of Arsenic in our Influent. We took samples of our Influent and three Industries to Eurofins for testing. Mr. Anderson will be back from vacation later this week and we will have a formal plan of action to send to you and all on this email.

May I email you the action plan or would you rather have it on paper and sent certified mail?

My apologies for the oversight.

We will fill out each section of the Pretreatment Report each quarter so we can stay on top of any errors.

Thank you,

js

Jimmy Smith
