Re: NPDES Permit No. AR0021601
Pretreatment Program Annual Status Report

Dear Allen:

In accordance with Part III (8)(D) of the above referenced NPDES permit, I am sending you the enclosed information.

The Searcy Pretreatment Program did not have any Significant Industrial Users that met the definition for Significant Noncompliance (SNC), as defined by letter received from U.S. EPA Region 6, dated October 24, 1991. Said definition refers to 40 CFR 403.8(f)(2)(vii).

Referring to the subparagraphs of Part III (8)(D) in the permit, we submit the following information:

- (1) The updated list of significant industrial users is enclosed with this letter as Attachment "A". With the exception of the categorical IU's Semi-Annual Report, this information only reflects monitoring activity by the Utility and does not include all the self-monitoring activity as performed by each IU.
- (2) There were no service terminations or permit revocations during this pretreatment reporting period. However, one industry, Finzer Roller (formerly Samuel Bingham Enterprises) eliminated its industrial contribution altogether and so it was no longer necessary for them to maintain an industrial discharge permit.
- (3) The Searcy POTW has not observed any interference, pass through, upset, or POTW permit violations known to be caused by contributions from our significant industrial users.
- (4) The results of the latest 40 CFR 122 Appendix D Table II and Table III analysis on the POTW influent and effluent is enclosed with this letter as Attachment "B".
- (5) Since there were no SIUs in Significant Noncompliance in this period, there is no newspaper publication of the SNC report.

(6) See Attachment "A" enclosed.

(7) Attachment "B" includes this information.

Also enclosed with this letter is our completed Pretreatment Performance Summary (PPS) form.

I trust that this information will meet with your approval. If there is any more information that you require in this regard, please do not hesitate to call me.

Sincerely,

SEARCY WATER AND SEWER SYSTEM

Assistant Manager/Pretreatment Coordinator

Monitoring Activity: Numeral indicates the number of times inspected or sampled during reporting period.

Compliance Status Codes:

- C--No violations during reporting period
- NC--One or more violations during reporting period, but not SN
- SN--Significantly Non-compliant, per EPA definition
- BMR--Baseline Monitoring Report submitted (new IUs only)
- 90--90-day Compliance Report submitted (new IUs only)
- S-A--Semi-Annual Report submitted (categorical IUs only)
- S-M--Compliant with Self-Monitoring requirements
- LIM--Compliant with effluent permit limitations

Notes:

- (1) Central Arkansas Hospital was bought out by White County Medical Center and is now doing business as White County Medical Center South.
- (2) Samuel Bingham was bought out by Finzer Roller. After a significant change in milling equipment, it was determined that their discharge consisted only of sanitary sewage. Thus, their industrial contribution was eliminated and their discharge permit, along with its monitoring requirements, was cancelled on 01/20/2006.
