**Subject:** AR0021768\_Russellville City Corp Sept 2016 written notification to re evaluate tech based local limits\_20161121  
**Attachments:** 0643\_001.pdf

Thanks Randy,

City Corp's (Russellville's) notification the City will re-evaluate its technically based local limits and submit the results within 12 months of City Corp's permit effective date and duly noted as received during the month of September 2016.

Thank you for the submittal and if Megan has any questions she should feel free to contact this office (soon).

Sincerely,

Allen Gilliam

Allen  
Attached is a copy of the notification we sent to ADEQ in early September, sorry I did not copy you on this. Let me know if you need any other info from us

Thanks

Randy Bradley  
Wastewater Operations Manager

Randy,

What have you got prepared for the below requirement per your permit?

I know Megan is working on them again as we've just exchanged emails and some old spreadsheets, but how do you want to respond to ADEQ ASAP?

I'm out of the office the rest of the week so I won't be in till next Monday.

If you're re-evaluating them again (which it sounds like), your response to me (cc'n Alan Anderson, your enforcement analyst) should repeat what's in the red below.

Your permit's effective date is September 1, 2016, so you're late on the November 1 deadline.

(Alan, I don't know how 10/31/16 got into ICIS)

Allen g

Hey man:

Is this a pretreatment document. If so, has Russellville submitted it yet. It was due 10/31/16 according to ICIS database. I looked on the G: drive but didn't see it.

1. Within sixty (60) days of the effective date of this permit, the permittee shall submit: (1) a **WRITTEN CERTIFICATION** that a technical evaluation has demonstrated that the existing technically based local limits (TBLLs) are based on current state water quality standards and are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination, or (2) a **WRITTEN NOTIFICATION** that a technical evaluation revising the current TBLL will be submitted within 12 months of the effective date of this permit.

Thanks

Alan
