Subject: AR0021768 AFIN 58-00105 City of Russellville Pretreatment Program Mod: Streamlining Update

November 15, 2011

Randy Bradley, Pretreatment Coordinator
City Corporation-Russellville Water and Sewer
P O Box 3186
Russellville, AR 72811-3186

Re: Russellville Pretreatment Program Modification: Streamlining Update
(Permit No. AR0021768, AFIN 58-00105)

Dear Mr. Bradley:

This email is written in response to our telephone conversation regarding City Corporation's required program updates and any pertinent dates. The Department has reviewed the July 2011 audit report. City Corporation was required to update the program narrative and also update the local limits. Permit No. AR0021768, Section 13.B on Page 20 of Part II which was effective on October 1, 2010 required a submittal date of October 1, 2011 for TBLs. In addition, City Corporation responded in a letter dated August 19, 2011 that "*The expected completion date is October 2011*" for the program narrative update.

Before October 1, 2011, City Corporation submitted a local limit development for metals and cyanide which the Department deemed incomplete. City Corporation must update local limits for conventional pollutants as well. City Corporation has not submitted the updated program narrative or the local limit development for BOD₅ and TSS. Please submit the program narrative and local limit development for conventional pollutants before **February 1, 2012**.

If City Corporation has any questions or concerns, please contact the Department at (501) 682-0626 or by email at torrence@adeq.state.ar.us.

Sincerely,

Rufus Torrence, Pretreatment Engineer
Water Division
