Re: Springdale (NPDES #AR0022063; AFIN #72-00003) Pretreatment Program Audit /  
Municipal Pollution Prevention (P2) Assessment

Dear Ms. Enos:

This is to confirm that a Pretreatment Audit/P2 Assessment of Springdale's Program has been scheduled for September 23<sup>rd</sup> through the 25<sup>th</sup>, 2008. Please review the 9/03 audit checklist and update this as well as the information on pages 3 and 4, concerning your treatment facility to help expedite this portion of the audit.

It is scheduled to complete the event in about three (3) days. We'll begin at about 7:30 a.m. on Tuesday the 23<sup>rd</sup> with a review of the files you maintain for the city's industrial users. The files should be in order and complete. An interview covering the checklist and associated information will occur that afternoon.

Wednesday the 24<sup>th</sup>, SIU visits will be conducted with you or an appropriate pretreatment representative. If you feel it necessary you might contact the industrial users to let them know we may be conducting a "walk-through visit" of their facility. Focus will be on their wastewater generating processes and Pollution Prevention activities and techniques.

It is anticipated the exit interview will be conducted around noon on Thursday the 25<sup>th</sup>. General findings, required actions and recommendations will be addressed. Any questions you might have about the audit/assessment can be discussed as well as other pretreatment or P2 related issues. Interested city representatives are welcome and encouraged to attend this meeting. Please make them knowledgeable about the exit interview and subject matter.

If additional time is necessary to wrap up requisite audit information or to discuss modifications to meet the required "streamlining" revisions in CFR 403, the exit interview may continue later into the afternoon on Thursday.

If there are any questions please feel free to contact this office.

Sincerely,

Allen R. Gilliam  
ADEQ State Pretreatment Coordinator
