Thanx Jennifer,

Will scan and file this notice regarding change of industrial users for Springdale.

thanx,

allen g

Allen:

This is official notice that, as of this week, Triple T Foods, Inc. - our facility in town that prepares chicken parts for the pet food manufacturers - has shut down. Their facility is being torn down to allow street expansion. Triple T is in the process of building another plant in town. They hope to be in it by August. I will notify you when they are back in operation. In the meantime, we will close their current permit, and will require them to submit a new Industrial Waste Survey and Application for Permit for their new facility. A new permit will be issued prior to startup.

Best regards,

Jennifer Enos  
Pretreatment Manager  
Springdale Water Utilities
