Re: Permit Number: ARP000019  
State of Arkansas Pretreatment Reporting Requirements<sup>1</sup>

Dear Mr. Bolhuis:

In accordance with **40CFR403.12(e)** industrial users with processes regulated by categorical pretreatment standards (40CFR433, et al) must submit semi-annual reports to the Control Authority (ADEQ) to demonstrate continued compliance when the discharge from the regulated processes enter, can enter or will enter a Publicly Owned Treatment Works (POTW—local municipal sewer system). Bosch reports are due each year in May and November. Bosch's next semi-annual report is due in this office after **May 1, 2006** and before **May 31, 2006** by close of business day (4:30 p.m. CST).

Before signing the 40CFR433.12(a) certification, please verify that the TOMP is accurate and up to date.

If Bosch or an authorized representative has questions or needs more information, please contact ADEQ NPDES Pretreatment at 682-0626.

Sincerely,

Rufus J. Torrence, Pretreatment Engineer ([torrence@adeq.state.ar.us](mailto:torrence@adeq.state.ar.us))
