Fax: 501-362-9539

To: Allen Gilliam-ADEQ Pretreatment Coordinator

5-1-13

The Saint Jean Industry facility in Heber Springs AR. has not discharged any regulated wastewater (CFR Title40, Volume 27) for the period of November1, 2012 through April 30, 2013.

I certify under penalty of law that I have personally examined the facility's waste water program, in consultation with the facility Maintenance Dept. Leader, and understand that all wastewater associated with our industrial processes are contained within closed-loop cooling systems with "0" discharge.

I believe that this information is true, accurate, and complete. I am aware that there are significant penalties for submitting information, including possibility of fine and imprisonment.

Please contact me for any questions/concerns.

Tim Barry
Environmental, Health and Safety Coordinator
