**Subject:** AR0022381\_Saint Jeans ARP001050 Nov 2015 late semi annual report of No discharge\_20151215  
**Attachments:** scan0006.pdf

Bart,

This office has electronically received St. Jeans' late November 2015 semi-annual Pretreatment report certifying there's been no discharge of Federally regulated wastewater (under 40 CFR 467) into Heber Springs' sewage collection system during the last 6 months.

There are no further actions deemed necessary at this time.

Under 40 CFR 403.12(f) Saint Jean must notify appropriate City Wastewater officials and this office 30 days prior to anticipated batch discharge of "spent" closed-loop cooling system. During the Compliance Assurance Visit conducted on 11/8/11, this office was told the "closed-loop cooling system" had not been discharged in ~7 years and it was thought the entire system was usually discharged every 7 to 10 yrs.

Has it now been ~11 years since the closed-loop system has been discharged/replenished? The City must know when Saint Jean plans to batch discharge its cooling system as this may cause a "slug load" to the City's wastewater treatment plant potentially causing upset, interference or pass-through. Biocides, anti-scaling, corrosion control chemicals, etc which have built up for years may cause such incidents.

Thank you for the signed/certified report and cooperation.

Sincerely,

Allen Gilliam  
ADEQ State Pretreatment Coordinator

12-1-15

The Saint Jean Industry facility in Heber Springs AR. has not discharged any regulated wastewater (CFR Title40, Volume 27) for the period of May 1, 2015 through November 30, 2015.

I certify under penalty of law that I have personally examined the facility's waste water program, in consultation with the facility Maintenance Dept. Leader, and understand that all wastewater associated with our industrial processes are contained within closed-loop cooling systems with "0" discharge.

I believe that this information is true, accurate, and complete. I am aware that there are significant penalties for submitting information, including possibility of fine and imprisonment.

Please contact me for any questions/concerns.
