---

Ken and Vincent,

Pine Bluff's Technically Based Local Limits' certification statement (attached) satisfies your NPDES permit Section 11.b. (page 5 of part II) requirements.

Thank you for your timely submittal.

Sincerely,

Allen Gilliam  
ADEQ State Pretreatment Coordinator

Allen,

I am emailing the letter of certification for the technical based local limits (TBLL). A hard copy will be delivered via certified mail. Just wanted to make sure that this letter got in your hands. Thanks for your assistance.

# PINE BLUFF WASTEWATER UTILITY

*Re: Certification Letter for existing technically based local limits (TBLL)*

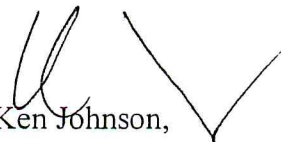

Dear Mr. Gilliam:

Pine Bluff Wastewater Utility is required to submit, within sixty (60) days of the effective date of our permit (July 1, 2015), a written certification regarding the existing technically based local limits (TBLL). In a recent discussion with the department, the following certification is submitted for your consideration:

- Pine Bluff Wastewater Utility certifies that the technically based local limits (TBLL) are based on current state water quality standards and are adequate to prevent *pass through of pollutants, inhibition, or interference* with the treatment facility, worker health & safety problems, and sludge contamination.

If you should need additional information, please give me a call at (870) 535-6603.

Sincerely,

Ken Johnson,  
Manager
